

GUIDED READING

Provide 1-to-1 Feedback

Teachers are able to "dial in" to listen to a single student at a time to assess reading performance and provide discrete feedback and vocal modeling directly to that student.

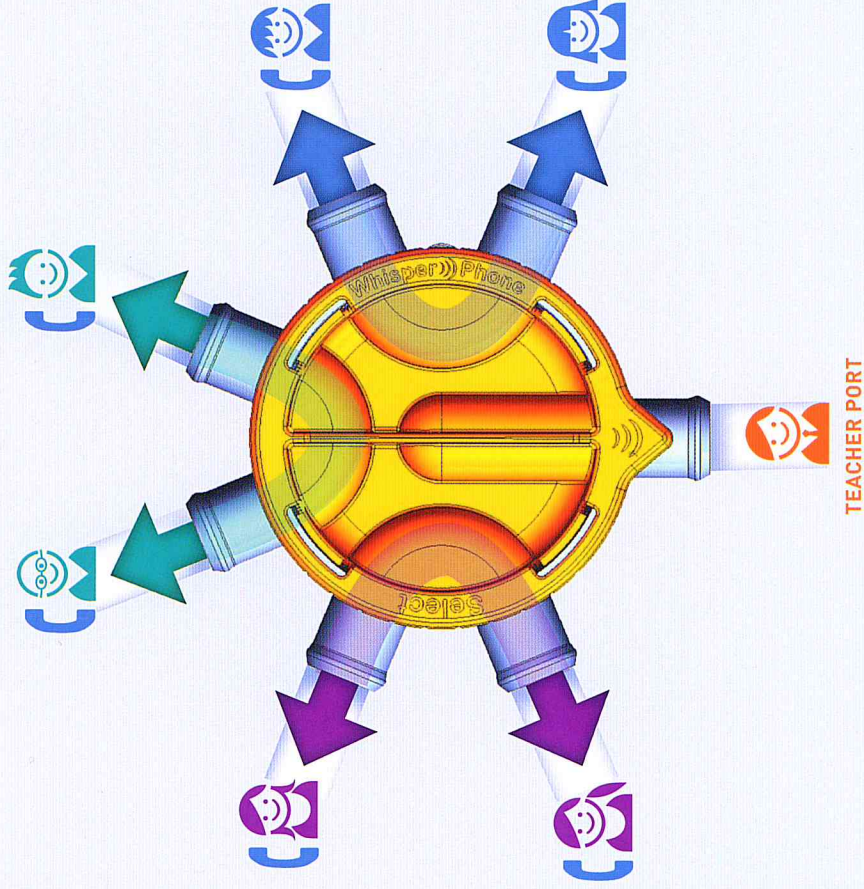

TEACHER INSTRUCTIONS

- 1 Turn dial so arrow points to intended student.
- 2 Hold close to mouth and speak into handset to connect with that student.

PAIRED READING

Create Reading Partners

Teachers are able to "set the dial" to create three paired reading teams that can perform in a very quiet learning environment. The six students participating will only be able to hear themselves and their reading partner.

TEACHER INSTRUCTIONS

- 1 Turn dial so arrow points to teacher port.
- 2 Have paired students take turns speaking into handset.
